SUMMARY

Tech enthusiast skilled in Python, C, and C++. Passionate about problem-solving and software development, with hands-on experience in building projects and participating in national hackathons. eager to work collaboratively and adapt quickly to new challenges.

EDUCATION

S.R.M Institute of Science and technology   Kattankulathur, Chennai

Bachelor of Science in Computer Science   May 2023 – May 2027

- CGPA: 9.14

TECHNICAL SKILLS

- **Programming Languages**: Python, C, C++, Java
- **Soft Skills:** Leadership, Problem-Solving, Team Work
- Areas of Interest: Web Development, DSA, AI

CERTIFICATIONS

- CS50's Introduction to Programming with Python.
- Programming In Java by NPTEL.
- Introduction to Front End by Meta.

PROJECTS

Temperature Humidity Sensor with Fire Alarm System

- was a member of the group project that secured the first place in the TechKnow competition organized by the university.
- Made using Arduino and DHT11 sensors to monitor temperature and humidity levels, with an integrated fire alarm system.

Weather App with GUI

- Used Python to make and fetch API calls from OpenWeather API and incorporated it into a GUI for a user-friendly experience.
- Implemented the application for real-time weather updates with an intuitive interface for improved usability.

EXTRA CIRICULAR

- Actively volunteered in organizing **Ultron 7.0**, a university-level ideathon, contributing to event coordination and management.
- Achieved **400th place** out of 1500 teams in the **HackWithIndia** pan-India hackathon.
- Member of **Futurix**, the official association of the Computer Technology Department.
